ALOCHEM Meerhout : Value Added Logistics Hub for chemical industry

Answering your (postponed & immediate) storage, repacking & filling needs for packed & bulk chemicals...

A brand new

VAS &
DISTRIBUTION
CENTER for liquid
& solid Haz and
non Haz
Chemicals

To offer a wide range of Value Added logistics services, the Altea Logistics Group is currently setting up ALOCHEM, a chemical logistics hub in Meerhout (BE). Altea deliberately choses a site close to the hinterland, outside Antwerp's congestion zone, to ensure smooth transportation and logistics handling. Global chemical producers will be able to use ALOCHEM for packed & ISO tank storage, heating, filling IBC's, drumming, mixing & blending, cross pumping... combined with the current transport and logistics capabilities and solutions of Altea's Bulk & Liquids.

SUSTAINABLE INFRASTRUCTURE

- ▶ BREAAAM Certification
- ▶ Use of washers to eliminate vapours to air and ground
- ▶ Closed loop cleaning of filling lines to minimise waste
- ▶ Maximum use of solar energy and heat exchanger

USP's

- ▶ De-bottlenecking
- ▶ Central distribution centre
- ▶ Safety stock
- ▶ Late customisation hub
- ▶ Optimised TCO
- ▶ Cross docking
- ▶ Extensive quality control
- ▶ Supply chain control
