BRUSSEL MOBILITEIT

GEWESTELIJKE OVERHEIDSDIENST BRUSSEL

WHERE THE WATERWAY IS ACTIVELY PROMOTED

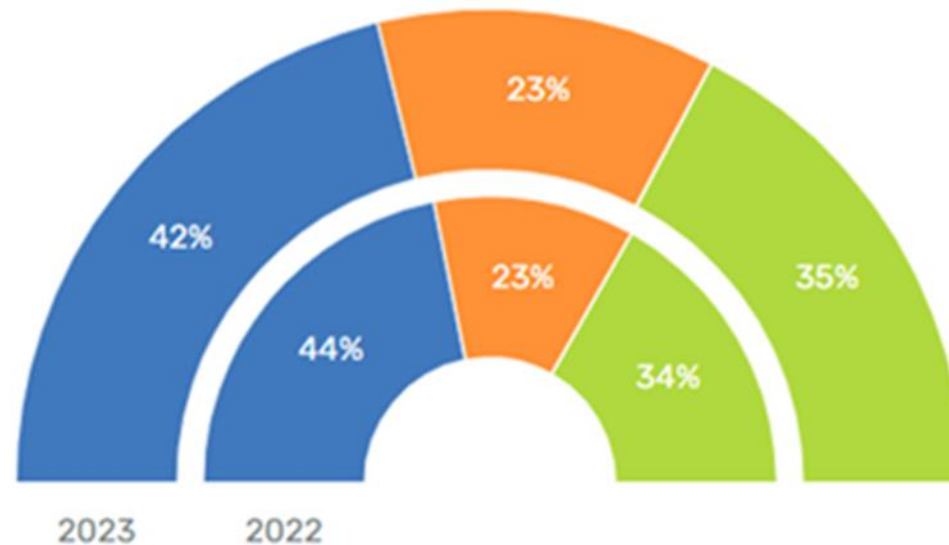

5 billion €

Goods transport represents **only 17%** of total traffic, yet...

Cost breakdown ⓘ

By vehicle, year to date ⓘ

● Car ● Light truck ● Heavy truck

They stand for almost **60%** of the congestion cost

Brussels, daily...

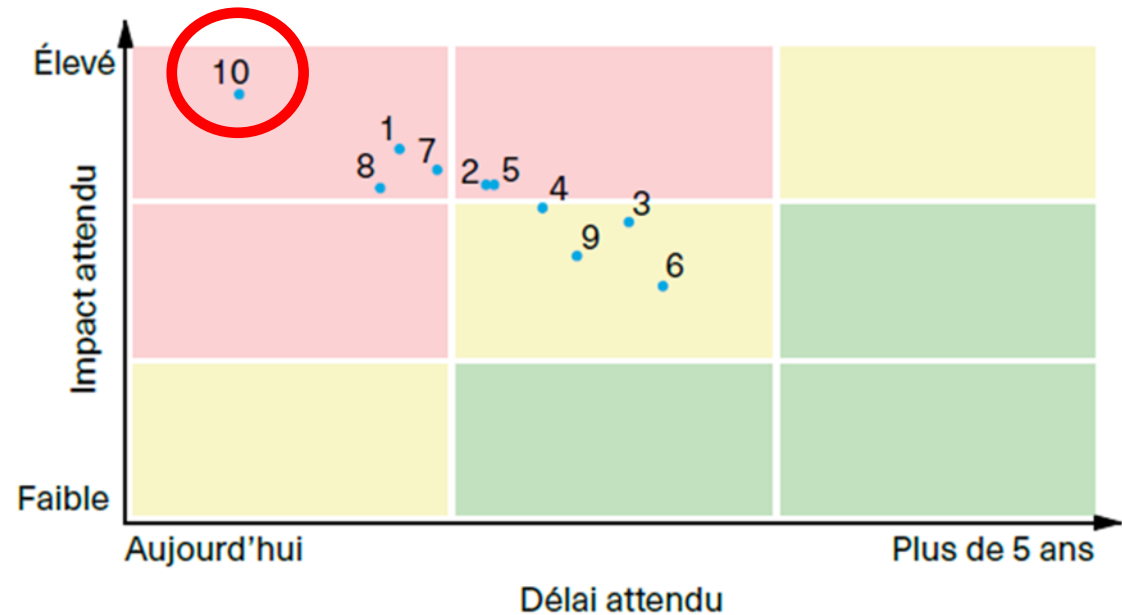

Receives 16,000 trucks, of which 30% are construction related

26,500 vans, of which 49% are construction related

The construction industry is in need for supply chain optimization

*"Supply chain optimization has been pointed out as **first** and **most impactful** challenge for the construction industry"*

(2022 - Buildwise, KPMG)

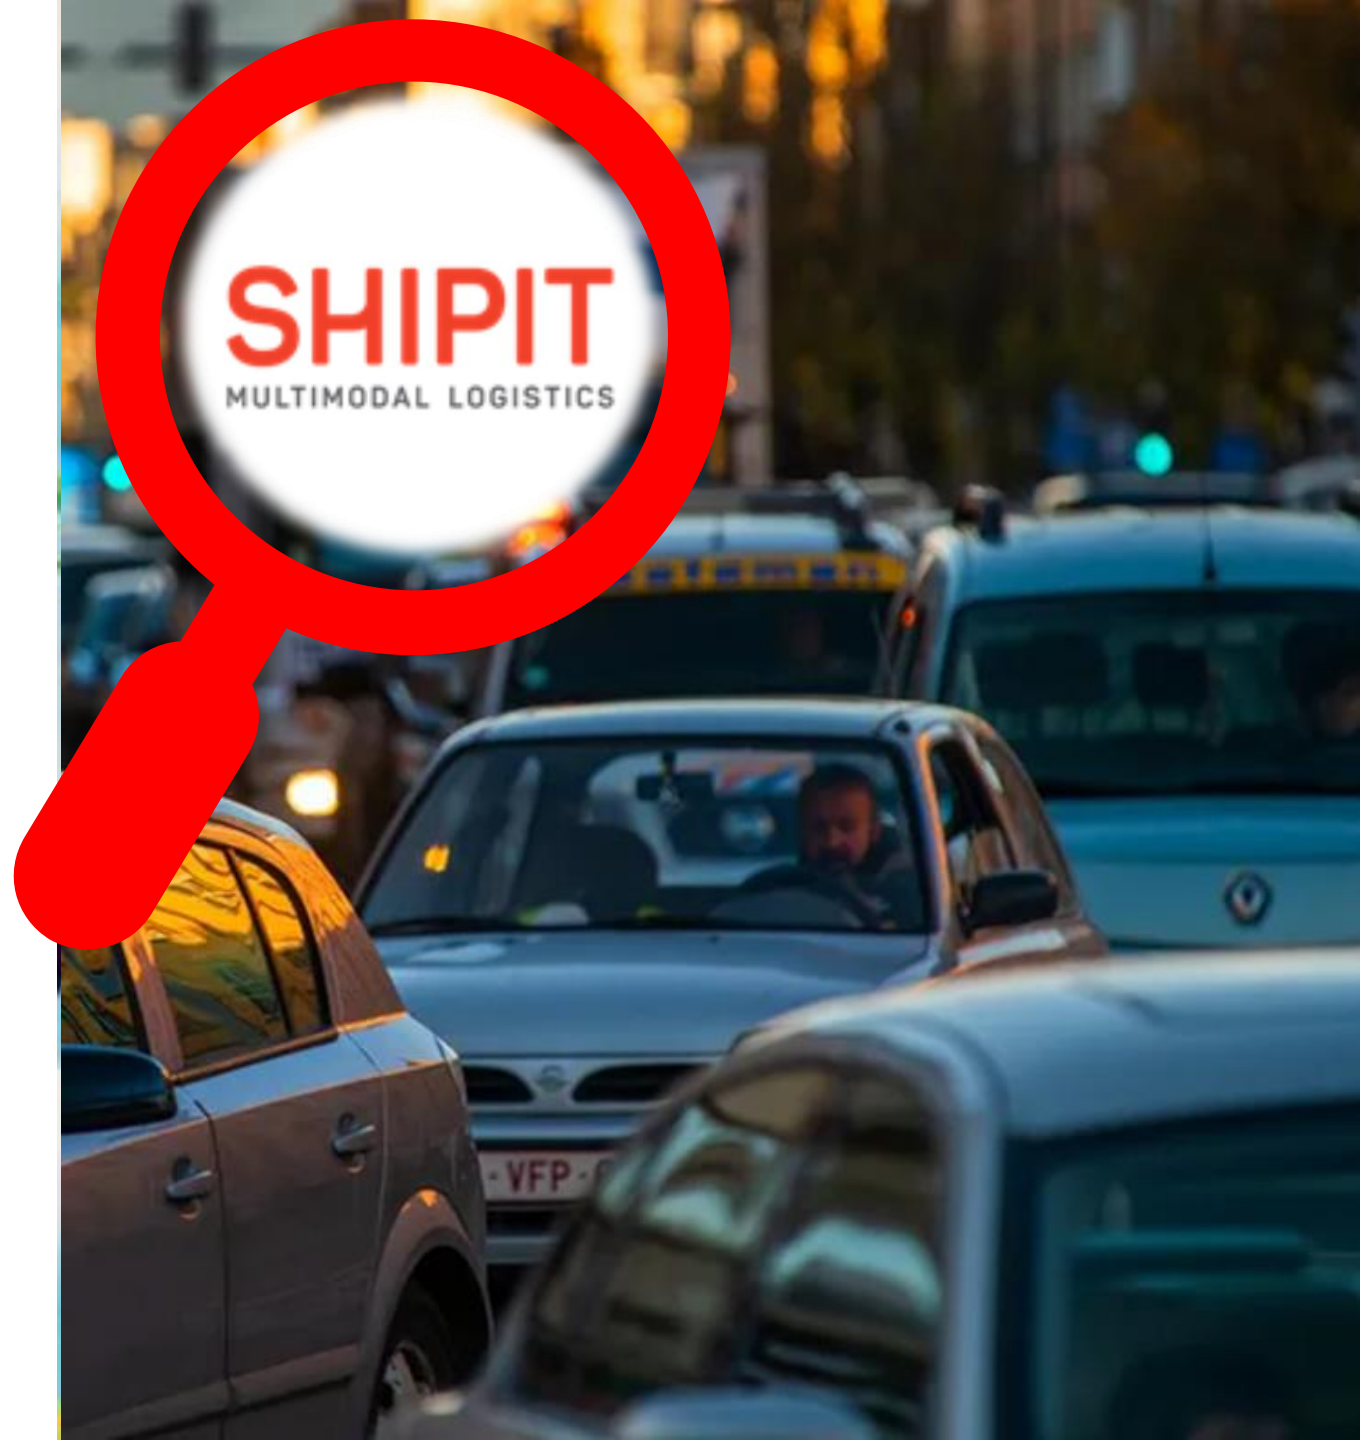

1. Guerre des talents
2. Numérisation
3. Industrialisation de la construction
4. Collaboration plus intense
5. Durabilité
6. Formes de logement du futur
7. Complexité juridique
8. Orientation client du secteur
9. Réévaluation du modèle économique
10. Modification de la chaîne logistique

Cost of congestion related to residential construction (appt) in Brussels only

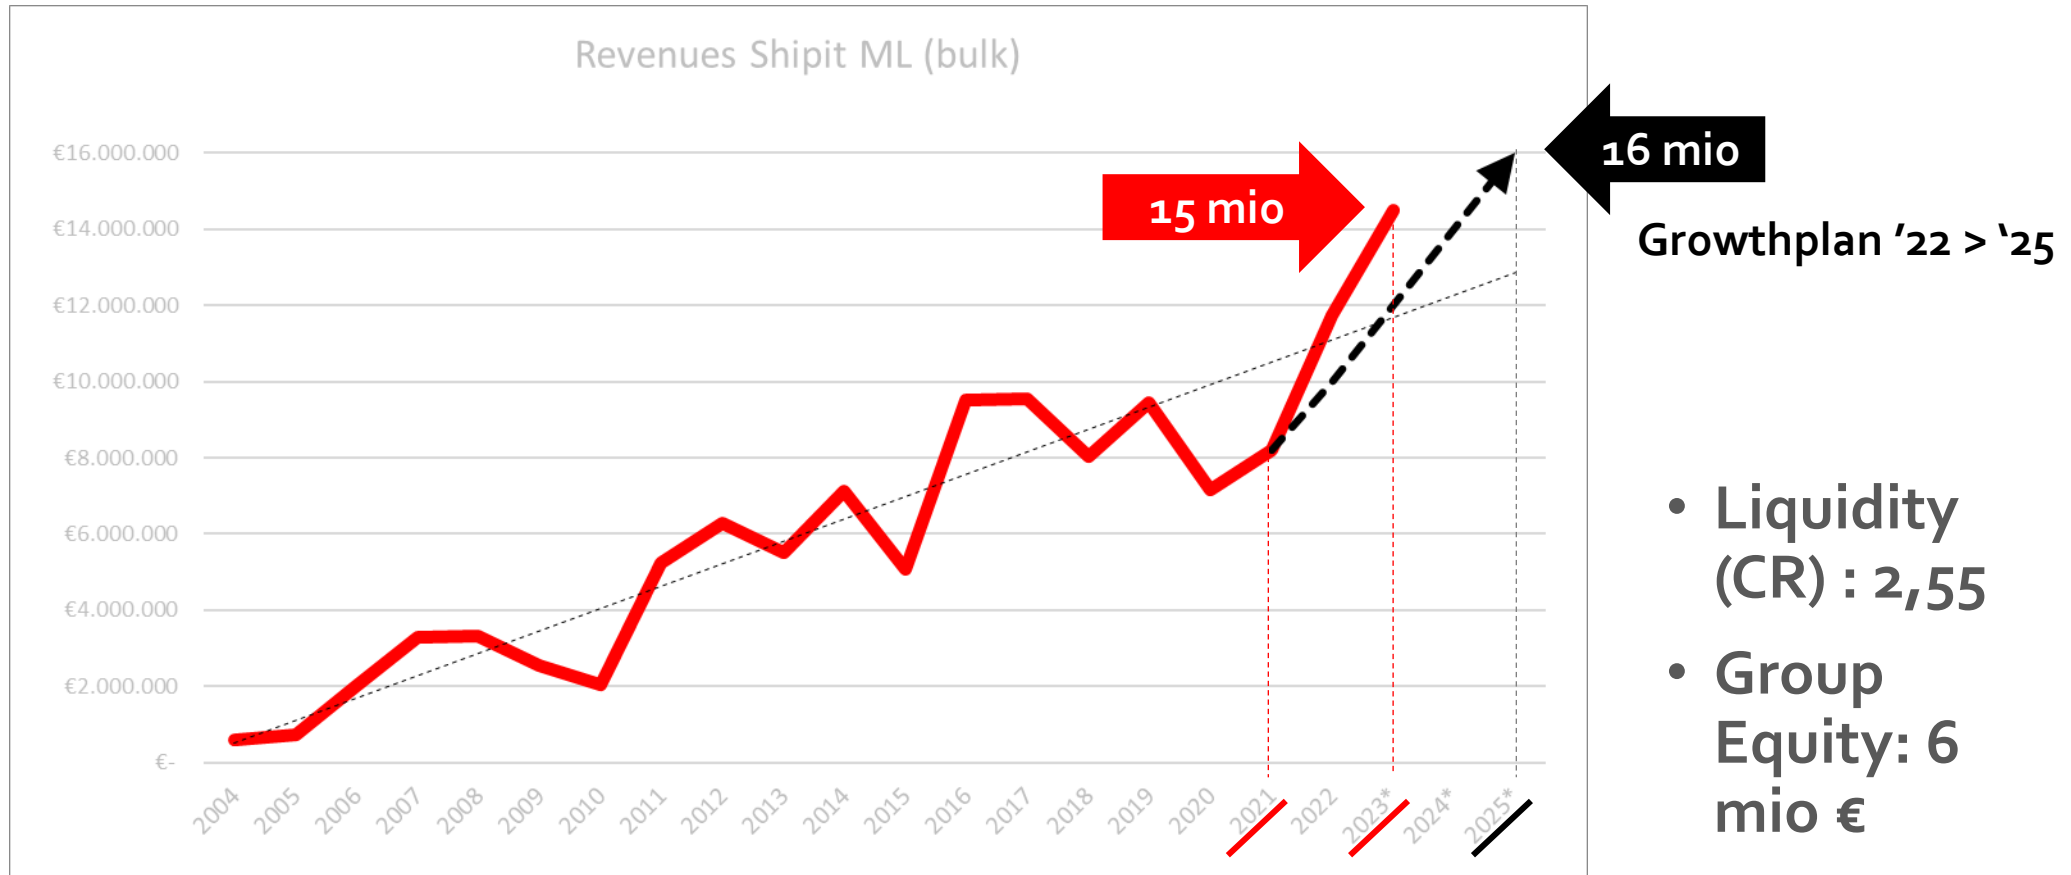

2,000,000 € each year

Like the Gauls where
able to overcome
the Roman
challenges...
